## HOW DO TOURNAMENTS WORK?

- Host location sets weekly schedule
- Players reserve spot for free at [SHOWDOWN21.COM](http://SHOWDOWN21.COM) or at table
- Players are randomly assigned to round 1 sessions
  - 3 to 6 players per session
- Everyone starts with 1,000 chips and plays 10 hands
- Each hand is played against the dealer but players compete against each other for chip count ranking
- Top 2 players with the most chips in each session advance
- Wild card winners are the players with the next highest chip count across all sessions to get 12 players for round 2
- Round 2 plays like round 1 with 4 session winners and 2 wild card winners moving to the final table
- Highest chip count at the final table is the TOURNAMENT WINNER!
- Host location awards prizes to winner and other top finishers
- TOURNAMENTS ARE ALWAYS FREE TO PLAYERS AND NO GAMBLING OR SIDE BETS ARE PERMITTED

## HOW DO CONTESTS WORK?

- Contests span a full month and run on all tables anytime tournaments aren't active
- Players start with 1,000 chips the first time they play and get an extra 500 chips each new day they play
- Players try to beat the dealer and build up their chip count to move up the leaderboard
- Rankings are tracked across all tables with prizes awarded by SHOWDOWN 21 at the end of the month
- Host location can offer prizes to winners from their location
- Chip count and rankings reset for each contest
- CONTESTS ARE ALWAYS FREE TO PLAYERS AND NO GAMBLING OR SIDE BETS ARE PERMITTED
